SECTION V: LAND USE STANDARDS

SECTION USERS GUIDE: This section contains general performance standards with which all development proposals submitted for approval pursuant to this Ordinance must comply.

The purpose of the regulations contained in this section is to allow maximum utilization of land while insuring against adverse impacts on environment, neighboring properties, and the public interest. This assurance is provided by separating the area of the Town of Newport into districts and permitting specific land use within each, provided that a use meets all the additional criteria specified in this Ordinance.

This regulatory approach has been termed “performance zoning” because it permits a use to be developed on a particular parcel only if the use on that parcel meets “performance” standards which have been enacted to insure against the use causing (or having the potential to cause) adverse impacts.

The following Land Use Standards shall govern all Land Use Permits issued by the Code Enforcement Officer and the Planning Board.

In review applications submitted pursuant to this Ordinance, the Code Enforcement Officer or the Planning Board shall consider the following performance standards and make written findings that each applicable standard has been met prior to issuing final approval. In all instances the burden of proof shall be upon the applicant.

A. GENERAL STANDARDS

1. ACCESSORY USES
   An accessory use shall not include any use injurious or offensive to the neighborhood as initially determined by the Code Enforcement Officer.

2. ACCESS REQUIREMENTS
   All road entrances, curb cuts, and driveways shall be designed considering land topography, street design, and existing and expected traffic patterns, so as to promote to the greatest extent possible, safe pedestrian and vehicular traffic and to protect public safety. All applicants must adhere to Title 17, Chapter 299 for all entrances, curb cuts, and driveways that are to be constructed on a State Roadway.
